## Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-42, drawn to a composition for lanthionizing keratin fibers, classified in class 424, subclass 70.2.
  - II. Claims 43-131, drawn to a method and kit for lanthionizing keratin fibers and, classified in class 132, subclass 203.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for using the product (composition) as claimed can be practiced with another materially different product (various compositions) in which the maximum concentrations of sodium hydroxide is 3% as claimed in claim 5 and 1% as claimed in claim 42. Also the product (composition) as claimed can be practiced with another materially different process for using the composition. In the instant case the composition can be practiced with a process that does not required an oxidation treatment subsequent to heating as claimed in claim 43 and a process that required the presence of thioglycolic acid only as reducing agent as claimed in claim 86. Further, the inventions have acquired a separate status in the art as shown by their different classification and therefore, a serious burden is imposed on the examiner to perform a complete search in the defined areas

Application/Control Number: 09/931,912

Art Unit: 1751

3. Because these inventions are distinct for the reasons given above, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Thalia V. Warnement on July 21, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

- 5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
- Further, in accordance with M.P.EP 821.04 and In re Ochiai, 71 F.3d 1565, 37 USPQ 1127 (Fed. Cir. 1995), rejoinder of product (composition) claims with process claims commensurate in scope with the allowed composition claims will occur following a finding that the composition claims are allowable. Until, such time, a restriction between composition claims and process claims is deemed proper. Additionally, in order to retain the right to rejoinder in accordance with the above policy, Applicant is advised that the process claims should be amended during prosecution to maintain either dependency on the composition claims or to otherwise include the limitations of the composition claims. Failure to do so may result in a loss of the right to rejoinder.

Art Unit: 1751

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eisa B Elhilo whose telephone number is (703) 305-0217. The examiner can normally be reached on M - F (7:30-5:00) with alternate Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on (703) 308-4708. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9310 for regular communications and (703) 872-9311 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
